SOME WORDS FROM THE COORDINATOR

I would like to start by saying "thank you" to all of the people who have been patient and understanding during our construction period. It was not always convenient and I very much appreciate those who were flexible and made the best of the situation. It is very easy to become negative and complain about everything. This negativity spreads so easily that pretty soon no one is happy. To those people who remain positive and rise above the complaints, your efforts do not go unnoticed and are greatly appreciated! It is important to remember that things could always be worse. Each day you wake up is another chance to make the day the best possible, given whatever you have to work with. Life is short, tomorrow is not promised, so make the most of right now!

As we move into summer, we will be doing lots of fun things!! Trips, classes, parties and more! Be sure to check them out and sign up early so you don't miss the fun!!

See you soon!!

Tracy

As you breathe right now,
another person takes his last.
So stop complaining
and learn to live with what you have.
