## Gas Pipe and Gas Meter Sizing Worksheet

The International Fuel Gas Code, Section 402.1 & 402.2, requires the gas meter and piping to be sized for the full appliance load. To insure compliance, this worksheet shall be completed prior to the issuance of a mechanical permit for the following types of installations:

### Tank-less Water Heaters, Generators and Pool Heaters

Identify all gas fueled appliances in the building and complete the required information below:

APPLIANCE	BTU RATING:	N/A
Tank-less water heater		
Water heater		
Furnace		
Dryer		
Stove		
Oven		
Gas fireplace		
Swimming pool heater		
Other		
Generator cubic feet of KW rating		
<b>TOTAL:</b>		

Cubic foot capacity of gas meter: \_\_\_\_\_

If the total exceeds the capacity of the current gas meter, I am aware that I will have to contact my natural gas provider to have an appropriately sized meter installed. This will be done before the final inspection.
